

STAR GAZERS

SG 1623M – 1 MINUTE (JUNE 6-12, 2016)

**BASED ON EPISODE 1423 (DAY STAR DAY 2014)**

<http://www.stargazersonline.org/episodes/1423.html>

“DAY STAR DAY AND THE HONEY MOON!”

DEAN: THIS YEAR'S SUMMER SOLSTICE OCCURS ON, TUESDAY, JUNE 20<sup>TH</sup>, THE SAME DAY AS THE FULL MOON, SO, WE INVITE YOU TO CELEBRATE DAY STAR DAY BY WATCHING THE RISING OF OUR LOCAL STAR, THE SUN, AND THE SETTING OF THE HONEY MOON.

JAMES: LET'S SHOW YOU!

(STOP)

JAMES: GET UP BEFORE TWILIGHT BEGINS ON THE MORNING OF TUESDAY JUNE 20<sup>TH</sup> TO OBSERVE NOT THE SUN ITSELF BUT THE INCREDIBLE EFFECTS OF A SUNRISE ON EVERYTHING ALL AROUND YOU. SIT QUIETLY AND TUNE IN WITH ALL YOUR SENSES. THE FULL MOON WILL BE SETTING IN THE WESTERN SKY SO YOU'LL HAVE SOMETHING TO WATCH AS YOU WAIT.

DEAN: WE CALL THIS FULL MOON THE HONEY MOON, BECAUSE IT TRAVELS SO CLOSE TO THE SOUTHERN HORIZON THAT PEOPLE IN EXTREMELY NORTHERN LATITUDES WILL SEE THE MOON MAINTAIN A YELLOWISH COLOR ALL NIGHT LONG, ALMOST LIKE HONEY.

JAMES: SO, HAPPY "DAY STAR DAY", MY FRIENDS, AND REMEMBER TO...

BOTH: KEEP LOOKING UP!
