

STAR GAZERS

SG 1906 - 1M

FEBRUARY 11-17, 2017

HAPPY BIRTHDAY GALILEO (LIKE 1405)

DEAN:  
GALILEO WAS BORN ON FEBRUARY 15, 1564

JAMES:  
IN HONOR OF HIS 455TH BIRTHDAY, WE WANT YOU TO WATCH THE SKIES LIKE OUR FAVORITE  
ASTRONOMER.

(STOP)

JAMES:  
AFTER DARK ON THIS FEBRUARY 15TH , YOU'LL FIND THE WAXING  
GIBBOUS MOON TO THE LEFT OF ORION.

DEAN:  
THROUGH HIS TELESCOPE GALILEO SAW SUCH WONDERS ON THE MOON - "CHAINS OF MOUNTAINS AND  
DEPTHS OF VALLEYS."

(STOP)

DEAN:  
NOW WE'RE FACING SOUTHEAST JUST BEFORE SUNRISE AND CAN SEE THREE PLANETS GALILEO SAW  
OVER 400 YEARS AGO.

JAMES:  
WHEN GALILEO LOOKED AT JUPITER UP CLOSE, HE SAW JUPITER'S FOUR LARGEST MOONS.

DEAN:  
DAZZLING VENUS IS THERE FOR US TO MARVEL AT JUST AS GALILEO DID WHEN HE OBSERVED ITS  
PHASES IN 1610.

JAMES:  
AND SATURN IS JUST BELOW VENUS LOOKING LIKE A BRIGHT YELLOW STAR.

DEAN:  
IMAGINE SEEING THE BEAUTIFUL RINGS OF SATURN FOR THE FIRST TIME! HAPPY BIRTHDAY GALILEO  
AND...

ALL: KEEP LOOKING UP!
