AIN'T NOTHIN' BUT A HEAVENLY G, BABY

LADDY DADDY DA, STAR GIZZLES, TRACE HERE LOOKIN' UP FOR YA AND THIS WEEK WE'VE GOT A GREAT VIEW OF THE HEAVENLY G!

ANY MORNING THIS WEEK PRE-DAWN, LOOK EAST AND YOU'RE GOING TO SEE BRIGHT, BEAUTIFUL, MARS. RIGHT NOW, SHE'S FLYING THROUGH A HUGE ASTERISM FORMED BY THE BRIGHTEST STARS OF NUMEROUS CONSTELLATIONS: THE 'HEAVENLY G'!

START IN THE MIDDLE OF THE G WITH RED BETELGEUSE IN ORION. HOP TO ALDEBARAN IN TAURUS, THEN BACK TO ORION FOR SUPER-BRIGHT RIGEL, THEN TO SIRIUS IN CANIS MAJOR, PROCYON IN CANIS MINOR, CASTOR AND POLLUX IN GEMINI AND FINALLY CAPELLA IN AURIGA!

RETRACE YOUR STEPS WITH A LINE CONNECTING THESE AND YOU'VE DRAWN A GIANT LETTER G IN THE HEAVENS! LOOKING AT STARS IS LOOKING BACK IN TIME -- AND AS THE ORIGINAL G, SNOOP DOGG, SAID, "YOU'VE GOT TO GO BACK IN TIME IF YOU WANT TO MOVE FORWARD."

SHARE THIS ASTERISM WITH ME ON TWITTER IF YOU SPOT IT AND KEEP LOOKIN' UP!
