TODAY, YOU CAN GO OUT BEFORE SUNRISE AND WILL SEE VENUS THE MORNING STAR IN THE EAST.

THEN AT NIGHT AFTER SUNSET YOU CAN SEE JUPITER RISE IN THE EAST AFTER 9PM.

NEARBY JUPITER IS TAURUS THE BULL! THE TAURID METEOR SHOWER PEAKS NOVEMBER 12. CELEBRATE 47 YEARS OF STAR GAZERS BY LOOK FOR BURNING METEORS THIS WEEKEND...

“so, it’s under the heavens with you – and may you remember to always, keep looking up!”
